**HB 6616** - An Act Concerning the Expansion Of Husky Health Benefits To Those Ineligible Due To Immigration Status.

---

Dear Connecticut Human Services Committee Chairs and Members:

My name is Julissa Lopez, I'm married, I'm a Domestic Worker, and a member of the organization Comunidades Sin Fronteras and Recovery for All, who fight for the rights of workers and immigrants in CT

I support HB 6616: An Act Concerning the Expansion of Husky Health Benefits for Those Ineligible Due to Immigration Status.

I have 3 children who are 10, 5, and 3 years old, my mother also lives with us, and I work taking care of the elderly for 5 years. My mother has diabetes and high blood pressure, she has to take medicine for life, without having health insurance it is impossible to buy the medical prescriptions that the doctor gives her every month, if she had health insurance she would not suffer watching my mother deteriorate her health.

Health care is a Human Right! We all deserve Health Care!  
HUSKY for EVERYONE.

Dear committee, I ask you to touch your heart and pass HB 6616 since you were elected by the people and now the people need you. Remember that many working families will see you as heroes if you do the right thing.

Thank you, God Bless,

Julissa Lopez  
Norwalk, CT
